What are these activities?

- These activities are for parents to help their children develop early language and literacy skills.
- These activities teach three primary skills which include phonological awareness, print awareness and use of language.
- Parents can use the activities during play and daily routines.
Activity

You can use these activities when:

- You and your child are together.
- Your child is happy.
- Your child is not hungry.
- Your child is not tired.
- The activity goes along with what your child is doing. (Your child is looking at a book. You can do an activity with a book.)
- Siblings and friends can join in!

Activity

Talking about food

Ask your child questions about food:

• What color is it?
• How does that taste?
• How does it smell?
• What do you like the best?
Talking about food

To help your child succeed, you can:

- Talk about how food tastes, smells and feels.
- Ask your child simple questions about his/her food (Does your cookie taste sweet?).
- Do this activity when you and your child are cooking in the kitchen.

To make this activity more challenging, you can:

- Encourage your child to describe food with more than one word (orange, juicy and sour).
- Have your child practice counting raisins and nuts and comparing sizes (big, little) and quantities (more, less).
- Ask your child harder questions about food (Is an apple a fruit or a vegetable? What else tastes sweet?).
- Talk about where foods come from and how they are made.
Activity

Talking about things outside

Talking to children about what they see or hear teaches them new words.

Ask your child questions about things he/she sees outside:

• What color is it?
• What do you see?
• How does it feel?
• What shape is this?
• What does that remind you of?
• How would it look if it was snowing?
Hints

Talking about things outside

To help your child succeed, you can:

- Talk about something your child can touch and feel.
- Ask your child questions about things he/she is really interested in (rocks, mud, butterflies).
- Ask your child simple questions (Is this rock smooth?)
- Help your child to describe things with more than one word (brown, smooth, hard).

To make this activity more challenging, you can:

- Describe something nearby and see if your child can find it. Have your child describe something for you and try to find it.
- Play with your child at putting things into categories (beetles are insects, an acorn is a nut, a rose is a flower).
- Talk about how things would look different in other weather conditions, or times of the day.
- Ask your child to imagine how things would look different if your child were the size of an ant.
